

Juan Avilez Sandoval

Full Stack Web Developer (6yrs exp)

Las Vegas, NV

sandovaljuan427@gmail.com

(424)347-9369

Don't think a person can truly be good in all aspects of development? Try me! I can design it, code it, program it, deploy it, debug it, maintain it, you name it. I can work seamlessly between the front end and the back end with database and graphic design skills to top it off.

Dedicated individual with 6 years experience in full stack development of responsive websites and complex web applications mainly using HTML, CSS, Javascript, PHP, and MySQL with a solid understanding of responsive design and UI/UX principles. A passion for developing simple and clean solutions. Fascinated by code and always seeking to learn more.

FDM4 America Las Vegas, NV

Nov 2018 - Present

FDM4 is a leader in software products for the apparel industry with customers in the ranks of Dicks Sporting Goods and Alphabroder.

Programmer Analyst: Debugging, resolving QA's, and adding features/custom mods on enterprise level software. Working with HTML, CSS and Javascript on the client side and Progress ABL programming language and database for server side programs.
